Met Tower Technician

Job Description

Advanced Development Services, Inc. is a developer, owner and operator of renewable power generation facilities, located in CA. ADS is currently looking to hire a Met Tower Technician to oversee the installation of meteorological (MET) towers and equipment as well as provide field support for operating wind farms.

Responsibilities will include the following:

- Perform installations, operations, maintenance and technical support to achieve safe, cost effective operation and maintenance of MET systems with minimal supervision.
- Maintain and troubleshoot MET tower systems, communications.
- Maintain and be responsible for company vehicle, tools and equipment to maintain a safe and efficient operation.
- Assist in the administration of field operations in areas such as development of operating procedures, environmental reporting, sub-contractor oversight, field support and inventory.
- Perform/direct housekeeping tasks to maintain a clean safe work environment and professional appearance.
- Work within and ensure strict adherence to all safety and environmental procedures.
- Able to work during scheduled hours as well as unscheduled hours.

Job Requirements:

- H.S. Diploma or equivalent education preferred.
- Minimum one year of directly related experience preferred.
- Experience operating skid loaders, forklifts preferred.
- Valid driver's license with clean driving record with experience pulling trailers.
- Education or experience in general construction, mechanical maintenance, electrical maintenance, or instrumentation and controls.
- Must be able to work outdoors in inclement weather.
- Ability to move and manipulate up to 45 kg (100 pounds).
- Must be able to climb up to 80 meters.
- This position requires a highly flexible individual capable of becoming multi-skilled and working in a Team environment performing various Team support functions.
- General computer skills.
- Will train extensively in the operations area to compliment your skills.

Competencies

- Ability to prioritize, co-ordinate activity, work to deadlines, and produce status reports.
- Ability to work independently and solve problems.
- Results driven with proven follow through abilities.
- Team player with excellent communication skills.
- Position will require up to 100% travel.
- Salary based on experience level.
